How a **BAD** day, turned out to be a **GOOD** day!
How a BAD DAY turned out to be a GOOD day
REALITY IS ME..

By Nick Morris
Apathy: Lack of interest or concern for things that others find interesting.
1. People stick their necks out and get no support.

2. Trust among team members breaks down.

3. Teams stop working together and develop a CYA mentality.

5. Operations become purely reactive, creativity stalls.

6. Customer becomes dissatisfied and has to take steps to deal with it.
Complacency: a self satisfaction accompanied by actual dangers or deficiencies; unconcerned with things around oneself.
Complacency?
Ya that's cool lol no worries

Apr 3, 2013, 5:16 PM

Hey man I had to run out for like an hour

Sounds good my man, see ya soon, ill talk

- **Group 6:** Hot Suit, Cool Air Vent, Supplied Air w/ Mens Safety w/ SCBA and Hearing Protection, Safety Man w/ SCBA and Heat Suit
You!!!
Just another reason for us to do a vehicle CIRCLE OF SAFETY check before driving off in our vehicles

A crew working for a utility company found this young child in the wheel well of their truck while conducting a “CIRCLE OF SAFETY” of the company truck the crew members were driving before moving the vehicle.

I don’t want to think about what would have happened if the employee had gotten in the truck and drove off without doing a walk around. Please share this eye opening, bone chilling photo and experience with your crews.

This crew has also reported children climbing into the back of company vehicles. Keep in mind children are out of school on summer break, so be sure to watch out for them!!
