**8. Review of Rosters**

**a. Membership Reappointments**

The following members are up for reappointment: Mr. Jon Ferreira.

**b. Membership Nominations**

**c. Officer Nominations - None**

**9. Interpretations – None**

**10. Action Items**

<b>Item Number: 20-25</b>	<b>NBIC Location: Part 3, S2.13</b>
<b>General Description:</b> Repair Procedure for Fire Boxes	
<b>Subgroup:</b> SG Historical <b>Task Group:</b> M. Wahl (PM), R. Forbes, T. Dillon, L. Moedinger, C. Jowett, F. Johnson, G. Galanes, R. Bryce	
<b>Explanation of Need:</b> In NBIC Part 3, S2.13.10.3, S2.13.11 do not define what to do at a riveted joint. On the tubesheet, or firedoor sheet, where it is flanged to rivet to the firebox, the repairs are silent on what to do at the riveted joint.	
<b>July 2025 Action:</b> Progress Report: Dr. Bryce presented this item to the TG. He showed a few diagrams to help explain the proposed changes. He stated the proposal may not be ready for vote, but they want feedback from the TG. After reviewing the item, he asked for the TG's thoughts on the progress that has been made. The TG gave their opinions and feedback. The task group will continue to work on the proposal.	

<b>Item Number: 23-85</b>	<b>NBIC Location: Part 2, S2.14.7</b>
<b>General Description:</b> Review paragraphs to replace with proper verbiage	
<b>Subgroup:</b> SG Historical <b>Task Group:</b> M. Wahl (PM), K. Anderson	
<b>Explanation of Need:</b> There is some slang and second person (POV) verbiage throughout these paragraphs. Recommend rewording with proper terminology (such that it could be understood internationally) and changing point of view (e.g., changing "you're pulling water" to "water is being pulled"). Since I don't have the technical knowledge to know what is slang and what isn't, what I have proposed will still need to be reworded.	
<b>July 2025 Action:</b> Progress Report: Mr. Dillon presented a document to the TG showing the work that has been done for the proposal. They are still waiting to get a few more answers before having a final proposal. Mr. Dillon will get the proposal finalized and then he will send it to Mr. Seime so he can request that the proposal be sent out to LB before the next meeting.	

**11. New Items**

**12. Ongoing Discussion Items**

**A. Concern for Historical Boiler Inspection Nationwide:**

- **July 2025 Discussion Review:** Mr. Seime stated the new historical boiler inspection module on the National Board business center is up and running. A few TG members have already taken it, and it has gotten good feedback. Mr. Anderson spoke to the group regarding Inspections on steam boilers in Iowa. He stated that the Albert City Board of Directors had no idea that the directors were responsible for the steam inspections. He also stated that Mr. Seime has volunteered to help with the inspections in Iowa. Mr. Anderson, Mr. Seime, and Mr. Berney all attended the Rollag Steam School. Mr. Seime stated he was very happy with the progress we are making. Mr. Anderson has also stated that he has been hearing from others in the industry that they are very happy with the progress and work the Historical TG is doing.
