10. Action Items

Item Number: 20-25		NBIC Location: Part 3, S2.13
General Description: Repair Procedure for Fire Boxes		
Subgroup: SG Historical		
Task Group: M. Wahl (PM), R. Forbes, T. Dillon, L. Moedinger, C. Jowett, F. Johnson, G. Galanes, R. Bryce		
Explanation of Need: In NBIC Part 3, S2.13.10.3, S2.13.11 do not define what to do at a riveted joint. On the tubesheet, or firedoor sheet, where it is flanged to rivet to the firebox, the repairs are silent on what to do at the riveted joint.		
January 2026 Action: Mike Wahl spoke on this item and stated he has not made any progress. He reviewed NBIC Part 3, FIGURE S1.2.11.5-c1 with the group. After discussion, M. Wahl stated he will look further into this item to make sure this Figure is not in Supplement 3, and if it needs to be added he will create a proposal and send it to T. Seime, to request it be sent to LB for vote to the STG. T. Seime asked M. Wahl to make sure he adds a figure number to the proposal, so NBBI staff will know where to put the figure in the book. The item was re-addressed, and further discussion was held between Robert Bryce, Linn Moedinger, and M. Wahl regarding details of changes that need to be made.		

Item Number: 23-85		NBIC Location: Part 2, S2.14.7
General Description: Review paragraphs to replace with proper verbiage		
Subgroup: SG Historical		
Task Group: M. Wahl (PM), K. Anderson		
Explanation of Need: There is some slang and second person (POV) verbiage throughout these paragraphs. Recommend rewording with proper terminology (such that it could be understood internationally) and changing point of view (e.g., changing "you're pulling water" to "water is being pulled"). Since I don't have the technical knowledge to know what is slang and what isn't, what I have proposed will still need to be reworded.		
January 2026 Action: M. Wahl gave a progress report on this item. He still has more work to do before creating and presenting a proposal. He is working with outside help to review the paragraphs. Once the review is complete, he will create the proposal and send it to T. Seime, to request it be sent to LB for vote to the STG.		

11. New Items

General Description: MAWP of historical boilers during alteration	
Subgroup: SG Historical	
Task Group: C. Jowett (PM), M. Wahl, H. Berny, J. Smith, R. Troutt, Z Johnson	
Explanation of Need: X is how you produce MAWP of a historical boiler and what is the limiting factor
