

January 23, 2019

To: David Douin, Executive Director & All National Board Staff

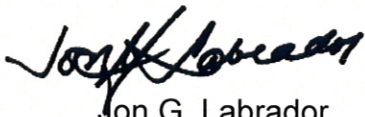

To our partners at the National Board,

As you finalize plans for the 100th anniversary celebrations at the National Board, we at ASME Conformity Assessment wish to also commemorate and celebrate 100 years that the staff of ASME and the National Board have worked together to fulfill our shared mission of pursuing high quality and enhancing public safety.

Only staff immersed in the process truly understand the logistics involved in preparation, coordination and implementation of a program as large and significant as ours. We see it every day and sincerely appreciate all that you do. It is only through the hard work and dedication of staff that are we able to maintain and strengthen a partnership forged in 1919 that still stands today.

We wanted to take a brief moment to acknowledge the quality work you do to keep the interchange between our societies moving forward (and upward). Please accept this gift as a token of appreciation for all that you do and as commemoration of an additional milestone that, while not always visible at the forefront, is absolutely crucial to the success of both organizations.

Congratulations on 100 years of service to your constituents. We look forward to celebrating alongside you in Salt Lake City and to further strengthening our partnership in the years to come!
