## 6. Action Items

**NB08-0322 Part 3 3.2 SG on R and A General** Add a new paragraph to 3.2 General Requirements for Repairs and Alterations to address change of service for a pressure vessel. These requirements should caution inspectors, owners, repair organizations and jurisdictional authorities of the inherent dangers involved when changing service. A new supplement should be added to address the specific requirements for repairs and alterations of pressure vessels that have been converted from one service to another. A task group representing all three parts of the NBIC has been formed under the leadership of Bob Wielgoszinski. Task group members from R & A are P. Edwards and B. Schulte.

A progress report was given. The task group met to discuss this item and will continue to work on this issue for the July meeting.

**NB10-0701 Part 3 SG on R/A General** Assure the ultimate objective of quality of work with sufficient documentation to show what was accomplished under the R stamp program.

A task group of M. Webb and J. Larson was assigned. This item appears to parallel action item NB08-0304 that is being discussed in SG R and A Specific. The task group will focus on the part of Mr. Scribner's item that addresses record retention. The task group will continue to work on this issue for the July meeting.

## 7. New Business

## 8. Future Meetings

July 2009, Columbus, Ohio
